SELECTED PROJECTS:

Sacred Intelligence

07/2026

AA Diploma Honours Nominee · Robotics · AI · Physical Computing

Developed and tested 1:1 robotic and responsive-media prototypes combining multi-colour sand deposition, gesture interaction and Python-based AI workflows.

No Curtain Call

07/2025

Interactive Theatre · Real-Time Media · Motion Capture · Object Tracking

Developed a physical-digital performance system combining modular stage elements, digital twins, inertial motion capture and AprilTag tracking.

Light Up New York For But A Moment

07/2023

Kinetic Prototyping · Transformable Systems · Arduino · Unreal Engine

Developed a transformable media structure through physical form studies, an Arduino-controlled kinetic prototype and Unreal Engine visualisation.

WORK EXPERIENCE:

AA School of Architecture

10/2026 (Upcoming)

Invited to lead a hands-on workshop introducing digital twin concepts and workflows to Diploma 2 students.

Foster + Partners

07/2023 – 09/2024

Worked across competition and design-development projects within multidisciplinary teams, contributing to coordinated digital models, design iteration and real-time visual communication. Took responsibility for complex Revit workflows and translated coordinated project information into Unreal Engine environments.

Amateurist Studio

07/2022 – 03/2025

Co-founder. Led the design and delivery of a concert stage for YEANA and developed collaborative product and visual design projects.
